a must read

By pedo

This is a must get and read for anyone who is going to take the oral board exam in pediatric dentistry.

I felt that it helped me to get a mind set and self test myself.

It helps you to organize in your mind the extensive material that is necessary to prepare for the exam.

I read it cover to cover and would recommend this to anyone who would like to take the oral boards.

Used this to study (and pass) my oral board exam

By Adam G

Really great review book for the oral exam. Wish I had known about this earlier. The format is pretty spot on, and the number and variety of cases is great. Passed the oral exam, hooray!
