Just conserve the requested publication downloaded and then you can delight in guide to review whenever as well as area you desire.

FORBIDDEN PLANET BY PHILIP MACDONALD PDF

The Novelization of the Classic 1956 Sci-Fi Movie!

Farrar, Straus & Giroux, Inc., 1956

FORBIDDEN PLANET

by Philip MacDonald

as W. J. Stuart

POWER-MAD DR. MORBIUS MUST BE STOPPED BEFORE HE ENSLAVES THE WORLD!

Commander Adams and the crew of Spaceship C-57-D land on Altair 4, the forbidden planet, where they hope to find the survivors of a previous expedition. But the only one they find is Dr. Morbius, a scientist with a deadly plan to take over the universe. Dr. Morbius warns the earthlings to leave at once.

But Commander Adams and his crew stay—despite the terrifying attacks on their spaceship. For they know that theirs is the last chance to stop a madman from becoming Master of the Universe.

Foreword

ONE Major (Medical) C. X. Ostrow

TWO Major (Medical) C. X. Ostrow (continued)

THREE Commander J. J. Adams

FOUR Commander J. J. Adams (continued)

FIVE Edward Morbius

SIX Major C. X. Ostrow

SEVEN Commander J. J. Adams

EIGHT Commander J. J. Adams (concluded)

Kindle Edition by Peril Press - typos should be Forbidden

By harvey

Typos galore, unfortunately this is the only version of the book available for the Kindle. There are enough

typos and odd sentences that need to be deciphered to irritate.

1 - 2 Stars

Warning - If you love the movie, love pulp sci-fi action/romance/horror/adventure stories, and love this novelization which is very good, you will become even more irritated by the poor formatting and typos every couple of pages. Why will you care? Because you want the book to be successful and a pleasure to read, because you are already a fan

Hopefully it is public domain, and we will see more editions.

If the book gets cleaned up and updated (And not re-released with a new ASIN), easily 5 stars

10 of 11 people found the following review helpful.

A fun read

By Scoe

My favorite film is Forbidden Planet. I think I have seen it at least forty times and never tire of it. I was delighted to find that there was a novelization of the movie. The book is a fun read and a bit different from the story line of the movie. It is a very fifties sci-fi style of writing. The book goes into the thoughts of Dr Ostrow, Commander Adams and Dr Morbius. Very, very interesting. My only complaint is that the e-book has a lot of typos that can be confusing. It needs a careful going over and correction. Also Robbie is simply a machine that serves and not anywhere near as interesting as the character in the movie

One of the Worst Sci-Fi Books EVER

By Amazon Customer

Shortly after being published, author Anthony Boucher called this book "an abysmally banal job of hackwork," and he was certainly right about that.

I can only conclude that this book was written by some demented hellfire-and-brimstone preacher who briefly glanced at this film for a few minutes before penning this "novelization" that does somewhat vaguely resemble the movie.

Dr. Morbius is now referred to as "satanic" in appearance, and the Krell were basically wiped out by God for the "crime" of "playing god" or creating life, or some such nonsense. Honestly, the author was down to ranting and raving by that point. The whole "moral" of this wretched book was some sort of muddled fundamentalist / luddite nonsense about how humans should forsake space travel, stay at home, worship God, and be careful about delving too deeply into of all this science stuff as that's apparently just above their station in the grand scheme of things.

I feel all but obliged to quote Dorothy Parker here: "This is not a book to be tossed aside lightly. It should be thrown with great force."
