I figured since I only buy him books and clothes I better make it good and this did the trick

By Clyde Cornelius

This is not just a book about people consuming Irish beer, but actually a book of all kinds of cool facts! I bought this for my 7 year old god son for Christmas. I figured since I only buy him books and clothes I better make it good and this did the trick. It was great to see him ignore all the plastic crap everyone else had bought him as he and his cousins all had their noses in this book. I'm not sure if he will learn much, but at least I got his eyes off the TV for a while. I'm interested to see what the 2017 edition will include. I'm hoping its different enough to justify buying annually. I have nothing but fond memories of the Guinness World Records books from when I was a kid.

Bit hit in my family has been for many years!

By Reviews by LisaLoo

This is a tradition in our family ,every Christmas I buy one for my family and all the guys in the family nephews, in-laws,brother basically making sure every family gets a copy. We are already reading it and passing it around as other gifts are being opened. These are always brand new books, they are nice big books and it's hard to put it down once you open it. Can't beat the price. I use to buy them at Walmart but not anymore... Amazon only for me because the price is the same Walmart has been selling out fast the past few years and it is just much nicer to have the same priced item delivered to your door instead of toting a bunch of heavy things home. These are really great gifts at any time of the year and once you start the tradition believe me it will be expected every year!
