The invaluable book for learning to paint and draw.

By Mr. R. Francke

This book was an invaluable tool to my mother when she was painting. I learnt to paint from the advice given in this book as a child and coveted it. It describes in detail techniques and materials. It also shows step by step examples of how a painting is constructed. I wish I had a copy.

A must have book for budding artists

By Dr V Arora

This book is one of the most useful books on drawing and painting I have come across. Not only does it discuss the different techniques of painting and drawing, it is a good source for information about the media-art materials, color characteristics and so on.
