David Lapham (Stray Bullets) pits Robert E. Howard's original barbarian king against a terrifying magical foe from his doomed homeland of Atlantis. The Hate Witch has waited from the beginning of time for a great man of uncertain destiny, whom she can use to bring about the destruction of civilization. She believes that King Kull is that man, and she has launched an all-out assault on Valusia, slaughtering its people, in an attempt to draw him to her seat of power—the wilds of Atlantis! Kull will have to return to his savage origins if he wants to hold onto the throne in Valusia and save it from civil war!

Howard's hero's & descriptive prose seems costumed designed for Graphic Novle's!!!

By Leo Hott

This is the second installment in the Graphic Novel trilogy about Robert E. Howards Pre Conan hero Kull! There are a lot of illustrated collection's centered on Howards pre cataclysmic barbarian Atlantean who rose to be King of Valusia the hub of Howard's pre cataclysmic world. But this trilogy has the best artwork & follow's Howard's work close enough to be a fine introduction to his Pre-Cataclysmic Hero Kull. Conan's Hyperborean world would be set years after the Great Flood mentioned in the Bible. Kull's world was set just before the great flood when the Nephilim would have been at there peak perverting all of God's creatures and creating the monstrous abomination's that King Kull does battle with... Robert E. Howard was a student both of history & Theology & created his wild world's accordingly.

Kulltastic

By Marc Horn

Kull The Hate Witch is an epic story by David Lapham that builds on the existing elements of Robert E. Howard's character Kull in a way that we have a sense of deja-vu in much the same way Kull feels when he first meets The Hate Witch. Gabriel Guzman is the amazing artist who brings an electric visual element to the book. In the back pages there is a section of rough sketches and comments, where David relates that he

and Gabriel gave this version of Kull longer hair and more barbaric features: "We came away with a Kull who is unique and distinctive." I definitely agree with David's personal assessment, the very first page shows a brooding, crowned Kull, sitting on his throne with almost Neanderthal features; it is very dramatic. The story fills the whole book and revolves around an ancient creature The Hate Witch who has some unfinished business with Kull that dates back to when he was a young boy trying to survive after a flood wiped out his family and tribe. David takes us back and forth in time, and from Kull's kingdom to Atlantis, a place that has bad memories for Kull, and a land where he is no longer welcome. David includes various sub-plots that mirror what we know about Kull and his world. The best part of the book for me was the art work of Gabriel Guzman, within the panels all the characters and scapes are drawn exceptionally well, and color artist Dan Jackson does an excellent job in increasing the tension with shifts of light and shadow, especially in his backgrounds. And the lettering by Richard Starkings (ComiCraft) is as always easy to read and the balloons fit perfectly within the panels. An added bonus is the paintings (covers) by Tom Fleming, surreal in their graphic detail. This is definitely a must have for Robert E. Howard fans.

Who ya gonna Kull?

By Exidor

Entertaining but not in the same league as the first Kull collection from Dark Horse.
