Most helpful customer reviews

28 of 29 people found the following review helpful.

excellent practice tool

By James Kellum

If you are an English Second Language student from a Latin country, you need this. No matter your learning rate, this will greatly improve your vocabulary. It won't help your accent, but there are great choices on CDs for that purpose. This is a way to build your word store fairly painlessly.

Highly recommended

3 of 3 people found the following review helpful.

Too advanced

By ReginaMon

I thought this book would be good, but the words are way too advanced for a beginning English-language learner. You have to introduce simpler vocabulary in a very basic format. The words are also too difficult for them to pronounce. They are not presented clearly, just in long lists with no application in dialogue or clear setting.

I will not be able to use it.

2 of 2 people found the following review helpful.

Like it

By Christina

Like I said, the ESL students like this text and seem to enjoy learning from it with their teachers. It's like level One not really a foundation text. Perhaps another level before this would be good for those who speak zero English.
