For courses in Introductory Psychology

The most learner-centered and assessment-driven approach to psychology
Throughout their number-one-selling Introductory Psychology franchise, authors Sandra Ciccarelli and J. Noland White employ a learner-centered, assessment-driven approach that maximizes student engagement, and helps educators keep students on track.

Now in its third edition, Psychology: An Exploration draws students into the discipline by showing how psychology relates to their own lives. Clear learning objectives, based on the recommended APA undergraduate learning outcomes, guide students through the material. And assessment tied to these learning objectives lets students check their understanding, while allowing instructors to monitor student progress and intervene when necessary to bolster student performance.

Also available with MyPsychLab

This title is also available with MyPsychLab – an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.

Good for College Studies

By Joseph

I needed to rent this for my sister's class and found this was the PSYCH 101 book. She told me it got the job done, and the book overall helped with her studies. She returned it, and the process was very simple. Amazon gives you a label, and you just ship it back in the box you got it in.

A book so good it may even be great. A scholastic achievement of epic scope and untold scale. Wow... just wow.

By Christopher M. Harper

So very full of words and punctuation and believe me there are periods and commas everywhere but most paragraphs start with a weird dent in them. They broke the piggy bank on page numbers, each is different. The pictures use color but none of them are scratch and sniff. I don't mean to spoil the end but it turns out that "it's your parents fault". I wish I could have filled the night sky with all the stars I would like to give this book, five seems so inappropriate.
