Awesome new Dear America-one of the best in the series!

By A Customer

The author may be 15 and she may not have needed to leave her hometown to write this book-but it is awesome! It takes place during the Dust Bowl in a small Texas town called Dalhart in 1935. Grace Edwards is a young teenager who's father grows crops, her mother is a housewife, and has a younger sister, Ruth. The girls attend a small school, where most of the families are all affected by the Dust Bowl-they are poor, have a hard life, and are very nice and mannered people.Except for a rich family's children-Sadie and her sisters. They are so mean and real that you just want to hit them and make them look like idiots. Anyway, Grace is used to the hardwork but when the Dust Bowl threatens to take her friends away-both to another state and to death, Grace and Ruth have a hard time surviving. Grace does volunteer at a hospital for dust pneumonia victims, but it is so hard since most of the victims die, breaking Grace's heart.The ending is especially surprising and touching-you will never expect it so I won't say it here.Read the books to find out! This book is well researched and written, uses good vocabulary, is very educational, and is a true addition to the Dear America series. Don't just get this book to complete your collection, like I had done, read this book and enjoy it!

A good new Dear America book, written by a teenage girl.

By Rebecca Herman

At first I wasn't sure how good this new Dear America book would be, since Katelan Janke, the author, is just fifteen years old. But I was pleasantly surprised, since she has written a book just as good as many of the Dear America books written by adult authors. Katelan Janke has written a fictional diary of a young girl living in Katelan's own hometown during the Great Depression. Twelve-year-old Grace Edwards has lived on a farm near Dalhart, Texas for her whole life. But it's 1935, and the region is suffering from a terrible drought as the entire country is devastated by the effects of the Great Depression. Grace describes her daily life in a diary as her family faces hardship and sorrow. She describes their determination to hold on and to never give up hope, even as many of their friends and neighbors abandon their homes in the hopes of finding a better life elsewhere. If you have doubts about reading this book because of the author's age, you shouldn't. Katelan Janke is a good writer and has written a good book for the Dear America series.

The best Dear America book ever!!

By A Customer

Survival in the Storm was the best Dear America book I have ever read. I like it so much that I've read it three times! It tells about twelve-year-old Grace Edwards, who lives on a Texas farm during the Dust Bowl. It's sad when Grace's friend Helen moves to California, and when Ruth's (Grace's seven-year-old sister) best friend dies of dust pneumonia. But there are joyful parts too, like when Sadie, a girl who was always mean to Grace and Helen, becomes friends with them when she moves to California (she wrote Grace a letter and apologized, and she was in the same migrant camp as Helen.) I recommend this book to kids and adults.
