A must have for every parent

By Valuation

I started working with my little one at the age of 3 years and 9 months. Initially it was bit hard for her to figure out how to combine the sounds, but I kept working.

With in 4 weeks time she learned to read all three letter words with a vowel. Truely amazing book.

Until the kid figures how to combine two sounds, only work on first chapter, and souds Su, So Si Se Sa.

After the kids figures out words are combinations of phonic sounds, lessons would go much faster.

Its a shame that it is not available as a reading standard to all.
