O'Connor** If you still puzzled the best ways to obtain guide for your gadget, you could adhere to the method below. As here, our company offer **The Barbarossa Covenant By Ian A. O'Connor** in this website.

Review

In O'Connor's (*The Twilight of the Day*, 2001, etc.) thriller, a retired FBI agent foils a Vatican takeover with roots in a WWII maneuver orchestrated by Ian Fleming and Winston Churchill. Retired agent Justin Scott--introduced in *The Seventh Seal* (2005)--arrives at an airport in Rome during a strange terrorist shootout. One of these mysterious figures muses to herself: "Szuros, you always insisted Winston Churchill had done something long ago which would one day compel Moscow to declare war on the Holy See, yet we all chose to dismiss that warning. What happened here moments ago proves you were right all along, and now the world is about to reap a terrible whirlwind." The novel then shifts to London in 1940. Lt. Cmdr. Ian Fleming suggests to Winston Churchill that they forge a letter from Sister Lucia, the Virgin of Fatima, who, in real life, claims to have had visions of the Virgin Mary as a child; her "letter" will be used to convince Hitler to invade Russia instead of England. Dr. Margaret Smalling is dispatched with newly invented penicillin to cure the ailing virgin and bring back handwriting samples. Cutback to Scott, a retired FBI agent who has done previous work for clergy. He's being briefed by Cardinal Kettering, to whom Scott's longtime friend Monsignor Jack O'Bryan reports, about some puzzling messages from Russia. Soon, various religious leaders are being killed or abducted, and the pope calls for an emergency meeting of cardinals in Rome. Scott is also made privy to the last letter of Fatima, which hints at the world's end or at least the church's toppling by Russian forces. As Scott tracks down various antagonists, a possible nuclear bomb threat hovers over the convening clergy. Author O'Connor, a retired USAF colonel, has written a nifty if overly ambitious thriller that brings up a surfeit of interesting threads--Dr. Smalling's mission, the conspiratorial survival of the grand duchess of Russia, etc.--that don't have ample time to fully develop. Still, O'Connor holds reader interest with his breakneck plot and some particularly charming characterizations, especially in the banter between Scott and O'Bryan. The end result fits nicely in the Tom Clancy-meets-Dan Brown canon. Fun if dizzying mashup of history and thrills. -- Kirkus Reviews

THE BARBAROSSA COVENANT BY IAN A. O'CONNOR PDF

"Author O'Connor...has written a nifty thriller that...holds reader interest with his breakneck plot...The end result fits nicely in the Tom Clancy-meets-Dan Brown canon." - Kirkus Reviews.

Past and present collide in the opening pages of *The Barbarossa Covenant* when retired FBI agent Justin Scott becomes a target for assassination while en route to Rome at the behest of the Vatican's secretary of state. Before learning why, the reader is whisked back to 1940 wartime London where British Intelligence is working feverishly on an audacious plan to thwart the imminent cross-channel Nazi invasion. With England's fate hanging in the balance, a papal emissary hand-delivers a sealed letter to Adolf Hitler from a source no mortal would dare ignore or disobey. The letter is lost to history in 1945 with the fall of Berlin only to surface without warning in the Vatican seven decades later. A very troubled pope wants Justin to authenticate or disprove both message and messenger-an admitted all but impossible task as the Doomsday Clock readies to strike midnight.

Stunning story telling anchored in history and fraught with suspense. review by r. vair

By rick vair

A masterpiece of story telling! Mr. O'Connor intertwines fact and fiction, past and present as if he were Merlin himself. The tension of modern powers and spycraft are intermingled in the web of past and present political machinery. Merchinery that pits spy against spy, country against country, the past against the present, the State against the Church and opposing events so strange they could provoke the Day of God's Wrath.

Elements anchored in the Russian Revolution, World War II and real, documented miraculous visions converge to bring the world and the Church to the brink of the Apocalypse.

More suspense than Brown's Da Vinci Code, Silva's Confessor or Fleming's Moonraker, the Barbarossa Covenant's tension builds...and builds until it is unbearable. You cannot turn the pages fast enough.

The more familiarity the reader has with modern world history, the deeper the satisfaction. But even a novice will be enthralled in this masterful tale of crosses, double crosses and truple crosses that bring the entire world to the brink of an apocalypse too horrifying to imagine. A great, great read!

Mystery, intrigue, and manipulation lead Justin Scott on a global hunt to unscramble the influence of the past on the present.

By robert michael barry

Wow! This is my first reading about Justin Scott. It will not be the last! This book offered intrigue and mystery into the intricate nature of The Church and the weaving of a web during World War II that stretched beyond the secret events. I loved the manipulation of the written word to fit the purpose of one family's dream!

Awesome Read

By susan burkhardt

Just finished reading The Barbarosa Covenant. It was another great Justin Scott thriller which kept this reader on the edge of her seat!!! Loved the characters and the historical facts-- The ending was intense!! Read the book in two sittings---could not put it down...Looking forward to more from Ian A. O'connor.
