THE PARENT AGENCY BY DAVID BADDIEL PDF

A brilliantly funny, gripping novel - and The bestselling hardback children's debut of 2014 - from a born storyteller, The Parent Agency is an epic wish-fulfilment adventure for every child – and for the child in everyone.

Barry said, a third time, "I wish I had better parents!" And then suddenly the entire room started to shake...

Barry Bennett hates being called Barry. In fact it's number 2 on the list of things he blames his parents for, along with 1) 'being boring' and 3) 'always being tired'.

But there is a world, not far from this one, where parents don't have children. That's far too random for something so big and important. In this world, children are allowed to choose their parents.

For Barry Bennett, this world seems like a dream come true. Only things turn out to be not quite that simple...

Illustrated by Roald Dahl Funny Prize winner, Jim Field.

A fun book which will help to keep children engaged and enjoying books.

By Sally Akins

Disclosure: I was sent a copy of 'The Parent Agency'* for review purposes, but the opinions in this post are honest and unbiased.

Barry Bennett hates being called Barry, it's not a cool name for a nearly 10 year old. He also hates his

parents always being tired and boring. When he wishes for better parents, he is transported to the United Kid-dom. This is a world where children can choose the parents they want from 'The Parent Agency'. He gets to try out various sets of parents, before deciding the ones he wants to spend the rest of his life with.

OK, so the concept of a child being dissatisfied with their life and being transported to a different life is not exactly original. There have been quite a few films and books which use this as their plotline, for example *Big*, *Vice Versa*, *Freaky Friday*. It's an idea which probably appeals to most children at some point in their lives!

My very-nearly 12 year old son Lyle is fairly reluctant when it comes to reading fiction, but he was pretty keen to get his hands on this book. He's really been enjoying it and told me:

This book is really good fun, I'm enjoying the story and the cartoons in it are great as well. I think it would be great for kids up to my kind of age, and I think some older kids would enjoy it as well. Don't worry, I don't want to pick any new parents!!

I also love Jim Field's illustrations which appear throughout the book. I particularly like the map of 'Youngdon' where Oxford Circus is actually a circus, and Nelson's Column has a statue of Nelson from the Simpsons. The cartoons add to the book without disrupting the flow of the story.

I'm always happy to see books which keep kids interested in reading, especially pre-teen boys who can so easily drift away from reading as a pastime. I was a very keen reader as a child, and as an adult it is one of my favourite ways to relax. In 'The Parent Agency' I think David Baddiel has come up with a book which will help to keep children engaged and enjoying books.

Wish-fulfilment stuff: original ideas that will get 'em reading!

By K. J. Noyes

4.5 stars.

Well done, David! After a slightly wobbly start for me (silly immature jokes and lists), I quickly saw that this was going to turn into an excellent wish-fulfilment adventure for young readers.

Like the 90s films *North* (Elijah Wood), Barry decides that he has rubbish parents and wishes he had different ones. He hates his name, he hates them being tired and poor, he hates his younger sisters. Now whether or not the following chapters are somehow real or a dream doesn't really matter. It's very funny and that writing is pretty convincing, as the voice of a not-quite-ten-year-old boy.

The world Baddiel sends Barry into is a scream, with every reference a nod to today's kids - Youngdon is populated by kids who can choose their parents, it's a lot of fun seeing Green Bogey Park and spotting famous names turned into slightly different ones.

Barry goes on his journey to find the best family he can, meeting a menagerie of weird and wonderful parents in this bizarre place who manage to take the mickey out of rich people, celebrity couples, hippies and fitness fanatics. Lots for parents to enjoy.

The illustrations are well spaced out, they don't try to make jokes from themselves as Williams often tries, and Baddiel's humour is also a little more subtle than his celebrity contemporary. He also has a handle on moving endings.

So it's a story that I've seen a couple of times before? Never mind, its fresh in its ideas and not something that's been done to death. Barry is a great lead character, flawed but you can sympathise with his 'plight', a James Bond and football fan who's sick of his sisters ganging up on him and wearing cheap trainers. There's also sympathy for his parents and a good few mentions of their feelings.

Yep, liked this one. Thought I'd be putting it to one side during chapter one, but it saved itself in time.

Would be lots of fun for storytime in class or at home, or great for confident readers of 8/9 to 12.

Hope its not a one-off, Baddiel has talent.
