Why should I read this book? and What will I get, or what is the outcome I'll get, for reading this book?

By DaKuY

Q #1: Why should I read this book?

- To find one of your many purposes that God has for you in this life. I believe that we have more than one purpose in our life, we could be impacting people directly and changing their life, or show God's love through us. When you read this book you will find that out.

- In chapter 8, *The Language of Success*, Isabel talks about how to find out your umbrella purpose that covers most of your life. This chapter alone was worth so much more than the small price of this book. Why? Because I figured out that my umbrella purpose is Love! This umbrella purpose is something that comes easy to give to others but hard to give to yourself.

- If you want motivation to keep going towards your goals to become a successful person and find it within yourself, not what others push onto you, definitely pick up this book. In chapter 2, *Your Identity*, Isabel talks about an analogy of having layers of clothes on that are expectations put onto you by your parents, family, the media, friends, and other outside forces. In this chapter she talks about ripping off these layers of cloths to come back to your true self, the Bible mentions to have faith like a child. To me that means that we lost our way, our faith, our true self as we grew up because we covered it up with layers of others expectations and goals for us. We need to take those layers off and accept ourselves for who we are, where we are, and how we look like because God made us this way and he will use our faults and scars to bring hope to others and glorify His name!

- I could go on and on about why you should read this book, but at the end of the day, it's your decision to buy it and read it. The key there is to make sure you read it after you buy it. For just a couple of dollars and a week of your time, (it took me about 3 days to read the book because it was so good), you can invest in yourself and learn and benefit from the lessons and insight Isabel learned that took her years to learn.

Q #2: What will I get, or what is the outcome I'll get, for reading this book?

- In one word, Clarity. You'll have a compass to be able to make decisions that align with your values and who you are to make decisions towards your success and your dream life!

If you are still not convinced, send me an email and I'll answer any questions or concerns you have and tell you how I benefited from it. I love creating, cultivating and having deep relationships that focus on the growth and self-development of others and like my "umbrella purpose" I mentioned above, I let God's "Love" shine through me. The explanations she provides are clear and easy for a layman to understand

By Carla Musarra Leonard

Where do I begin? This book is filled with so much helpful information. Isabel not only discusses the importance of self-awareness, but she shows how everything is connected: our experiences, our thoughts, our actions, and our energy. And everything is connected to faith and trust. We were created for a unique

purpose. She explains how we can become more in tune with ourselves to discover the role we were meant to play.

While reading this book, I had so many mind-blowing revelations. They were more than “aha” moments. They were moments that completely shifted my thinking. Isabel clearly explains how our thoughts impact everything, and then she provides exercises to help break down and release those thoughts that have a negative impact. More importantly, she equips the reader with tools to build new thoughts to transform your thinking.

The explanations she provides are clear and easy for a layman to understand. From a neuroscience standpoint, she discusses how the brain processes certain thoughts and events. One example was the topic of your comfort zone and what happens in your brain when you are outside of it. Now that I know this, I can respond better when fear starts to show up when I am leaving my comfort zone. I am better prepared with this knowledge and awareness.

This book is one of those that I will read over and over again to remind myself and keep my thoughts on track. I highly recommend this book. It really is a game changer.

Gotta read this!

By Kathleen A Patterson

Isabel Hundt's book "The Power of Faith-Driven Success" is a compelling book. There are several powerful moments in the book, most notably the idea to stop living other people's realities for your life and to begin your own journey! The way we 'see' ourselves has a great impact on who we are. Isabel states "It is time to leave those old clothes behind to discover who you are and therefore what your calling and your purpose is by tapping into your intuition and receiving guidance from within that will take you on your journey to living your life and no longer has you just survive"—these ideas take the reader to a place where he/she can begin to imagine the possibilities and ask the guiding questions to discover their path to their life's journey. The way Isabel presents the understanding of how God created us as intuitive people with brains that are fully engaged, can help shape anyone's journey to find all that God has for them. If you are seeking more for yourself, then this book and the principles presented will guide you well in your journey to success and purpose.
