Grade 3-6-Zorba is a noble, big, black cat from the port of Hamburg who keeps his vow to a dying seagull who was tragically caught in an oil slick. He promises to watch over her egg, not to eat the chick when it hatches, and to teach the baby gull to fly. With the aid of four loyal feline friends, he hatches the egg and the young female that emerges immediately calls him "Mommy." Having fulfilled two of the promises, Zorba and his mates must not only teach her to fly, but also give her the strength to leave those she loves to realize her true nature. Zorba breaks the taboo and speaks to a human poet, who carries the young gull and her beloved foster father to a church tower where Lucky naturally, gracefully takes flight. This intelligent, eloquently translated work examines loyalty, trust, and acceptance of differences. It truthfully displays environmental destruction caused by humans and the animals note that, "Humans, unfortunately, are unpredictable. Often it is with the best intentions that they cause the greatest damage." Zorba's Hamburg is populated with fascinating felines, several of whom have foreign accents and mannerisms. Sheban's soft-focus, black-and-white illustrations capture the action of the text and portray a world where animals must make important, life-changing decisions. Complete with humor and whimsy, this is a book with heart and soul. It will make readers' spirits soar.

Gr. 3-6. Zorba, a fat black cat, anticipates lazing around while his owner vacations, but his life abruptly changes when a dying, oil-covered seagull lands on his balcony and makes Zorba promise to protect the egg she leaves behind, raise the chick, and teach it to fly. With the help of several quirky feline friends and a human, Zorba accomplishes each task--and discovers the joys of caring for someone other than himself. This graceful balance of humor and heart is an irresistible read. Characters are distinctively drawn and diverse: Lucky the chick who embraces her gifts and her unusual feline family; Einstein the cat who worships the encyclopedia; and, of course, Zorba, courageous and tender. Simple language sensitively conveys the characters and events; and themes embracing respect for the environment, family diversity, and compassion are effectively conveyed both through dramatic episodes and character-driven comedy. "Humans, unfortunately, are unpredictable. Often it's with the best intentions that they cause the greatest damage." So says the wise cat, Colonel, in Sepulveda's charming tale of devotion, courage and the importance of keeping one's word. A man-made disaster indeed gets the story started: a female gull becomes mired in an enormous oil slick and expends all of her remaining energy in a final flight to safety. She lands on the balcony of an apartment building, where she meets the fat black cat Zorba and extracts a threefold promise from him: that he will not eat the egg she is about to lay, that he will look after it and, once it is hatched, that he will teach the fledgling how to fly. Zorba enlists the help of his good and noble friends ("He gave his word of honor, and the word of one cat of the port is the word of all the cats of the port," says Colonel). Each is endearing and distinctive, from the sage but stammering Colonel to the hilariously forthright Secretario to the encyclopedia-consulting Einstein. With shades of the friendship between a spider named Charlotte and a pig named Wilbur, the relationship between Zorba and Lucky (the name the feline gives the baby gull) explores fundamental questions of life and death, and following one's calling. Sepulveda also fills the brief chapters with memorable everyday moments: the busy Italian restaurant that serves the cats around the back (but only with a reservation), the catalogue of wonders cached in the house of Harry, a human friend to the cats. The language throughout, translated by Peden, is a marvel of economy and warmth, and Sheban's delicate charcoal and pastel illustrations heighten the sense of magic (particularly a wordless spread of Lucky taking flight over Hamburg by night). Readers will hope for the further adventures of these two unlikely friends. Ages 8-12. (Sept.) Copyright 2003 Reed Business Information.

Exhausted, she lands on a balcony where Zorba the cat is sunning himself. Zorba wants to get help, but the gull knows it's too late and she extracts three promises from him: 1) That he won't eat the egg, 2) that he'll take care of the chick until it hatches, and 3) that he'll teach it to fly.

Well the first two are hard enough, but the third one is surely impossible. Isn't it?

A must have for Children

By Armchair Interviews

Kengah is a gull on a journey to lay an egg where, when hatched, the chick would grow and thrive safely. Zorba, a coal-black cat, is anticipating a month's vacation from his human friend.

But when Kengah's wings are weighed down by an oil slick, she aborts her travel plans and struggles to the nearest port to lay her final egg. Kengah is able to fly to the balcony of a nearby apartment building where she meets Zorba. As Kengah lays dying, Zorba promises three things; that he will not eat the egg, he will watch over the egg, and when it's time, he will teach the chick to fly. Zorba is a cat with a sense of honor and with three cat friends, struggles to learn about gulls so he will be able to keep his promise to the dying gull.

The Story of a Seagull and the Cat Who Taught Her to Fly by Luis Sepulved is an extraordinary tale about the lengths a parent will go for a child. It is beautifully written with compassion and humor. It proves that when commitment, honor and love are involved, great differences can be overcome.

The black and white illustrations are amazing. This is a book for ages 8-12 and one that parents will want to read to and share with their children. This book and its message are so beautiful that it should have a permanent place in that special child's library. I love this book!

Wonderful to Read Aloud

By J. Eareckson

I read this book to my 7 year old twin girls, and the three of us loved it. The vocabulary, the humor, the characters were all wonderful. I have high hopes that the author will continue to write children's books.

A Great Story of Courage in the Face of Environmental Disaster and an Excellent Translation

By Elvin Ortiz

This book is a great read for all ages, and it is appropriate for children 7 to 12. The summary provided by Amazon is correct. The only thing I have to add that it is a story of great feeling, and from an academic standpoint, it is useful to develop language art skills and language learning skills. I think it is best read if read aloud. If I had children, I would read them this book at night.
