Chapter One

"Are you sure about this?" my friend Tori asks, shooting me a doubtful glance as we pull into the drop-off lane at the Austin airport. She frowns. "I still don't think it's a good idea."

"You're one to talk," I tease as I open the door. "I swear I saw rope marks on your wrists this morning."

She has the good grace to blush at that.

I open the passenger door as Tori slams the car into park and gets out to follow me around to the back. Damn, but that woman can be persistent. It's one of the many reasons she's one of the top FBI agents in the field office where we both work, and why I love being assigned to work cases with her. That and the fact that she's one of my closest friends, along with Kate, the other female agent in our office who's the third member of our bad-ass girl gang.

"If you want to see if you like being tied up, fine," she continues as I lift my carry-on bag out of the trunk. "I'm not judging, I promise. I just don't think your first experience with BDSM should be at a weekend retreat out in the middle of nowhere where you don't know anyone. Find a guy you like, get to know him, and then explore your fantasies with him."

"You're the one who told me about the retreat," I remind her.

She rolls her eyes. "I thought you were asking for a case."

I love Tori, but she has no idea what it's like to be me. She's married to one of the sexiest and most self-confident men I've ever met, who in addition to being rumored to have singularly erotic tastes, also happens to be charming, wickedly funny, an incredibly talented singer, and completely and unequivocally in love with his wife.

I set my bag down and look her in the eye. "That would be ideal," I agree, "but men like Drake are rare. You're lucky that you found someone who's not intimidated by your job. Men are only into me until they find out who I am or what I do. After that they either run for the hills or become groveling idiots. After eight to ten hours a day of being a bad ass, I just want someone else to take charge. Is that so wrong?"

Tori sighs. "Of course not. I just don't know if this is the best way to go about finding what you want."

"I can't think of a better way," I say resolutely. "This is actually perfect. I can explore what it's like, and what I like, without any strings attached, and I won't run into anyone I know since it's in Denver. And you said yourself that your brother-in-law's friend who organized the retreat is both classy and experienced with this...kind of thing."

Tori nods slowly. "That's true. He's owned an exclusive club in Houston for years and I know he'll make sure things stay safe and consensual."

"Don't worry. I'll be fine," I assure her. "I catch bad guys for a living, same as you. You should know better than anyone that I can protect myself."

"I'm more worried about your heart," she mutters darkly as I give her one last hug before walking into the airport.

My heart is the last thing I'm worried about. I've given up on finding anyone worthy of it, and I certainly have no intention of giving it to anyone. My body, on the other hand, is another story. It craves a man who can own it, who can take my senses, my power, and my choice and give me freedom in return. I want a man strong enough to possess me, a man I can surrender to, who can take what he wants and in the process, pry the world from my tight grip and set me free to just feel and experience.

If I didn't know a man like that existed, maybe I'd be content to settle for less. But I found it once, and that one man who made love to me a lifetime ago has ruined me for everyone since. I don't even know why I'm thinking about MarcusDunn now. It's been ten years since he pinned my hands over my head and drove into me with a force that sent me spiraling into pleasure I'd never experienced before or since. I shake my head, trying to rid myself of the unwanted memory of him--the sculpted hard planes of his tanned face, his powerful body that he worked so hard to keep in prime condition, the way his smile reached his expressive brown eyes, and his naturally commanding presence that demanded respect and deference from everyone he came in contact with.

I shake my head, mentally shoving the memories back into the box distinctly marked DoNot Open. I distract myself by talking to the sweet five-year-old seated next to me, and when my plane lands in Denver, I've successfully banished all thoughts of the man I shared the best summer of my life with. I'm ready to have some fun, and if things work out the way I hope, some mind-blowing sex!

Marcus Dunn came into my life ten years ago and possessed me body and soul, introducing me to a world of dark and forbidden pleasures before disappearing without a word.

I've never forgiven him.

Or forgotten him.

Walking away from Ariana McKnight was the hardest thing I've ever done.

But running into her after all these years, handcuffed to a spanking bench, has me forgetting everything I promised myself ten years ago.

I still can't have her.

But I can't stay away.

One tough FBI agent who longs to give her power away—just not to him.

One former Navy SEAL who wants to take it, but can offer her nothing in return.

One snowbound weekend in the middle of nowhere with no choice but to resolve their unfinished business.

Great addition to the Black Brothers Trilogy!

By Selma

This novella is an addition to the Black Brothers Trilogy but can be read as a standalone. Reading the previous three books is in my opinion not a pre-requisite to understand what's happening in this one. But it surely helps you to get the connection between some characters. I've read the trilogy and loved the books. I couldn't wait to get my hands on this one!

Ariana - Ari - McKnight is an FBI agent. She has to be strong and tough all the time because of her job. She longs for a man she can surrender to and who can set her free to just feel and experience. So she decides to visit an exclusive BDSM club over the weekend in order to explore her sexuality. What she could never have expected was to meet Marcus Dunn there. The man with whom she spent 3 unforgettable months with in Italy ten years ago. The only man she ever loved and who broke her heart by leaving her without a word. Marcus is supposed to be her Dom for the night and show her around because she is new to the scene. After some hot foreplay, followed by a dispute at the club, Marcus decides to take Ari to his cabin. They both have unfinished business to discuss. A snow storm forces them to spend more time together at the cabin as planned which leads to several scorching encounters and passionate discussions. But are they really ready to let each other go after this unforgettable weekend? Is Marcus and Ariana's love truly timeless?

I loved this novella so much! It was a fast and very enjoyable read. I already fell for Marcus while reading Matchless, the second book in the Black Brothers Trilogy. I was intrigued by this character and wanted to know more about him. He is a loyal, honorable and dominant man. He is used to get everything he wants. The only thing that he can't control however is his heart when it comes to Ariana. Marcus fell in love with her many years ago. Her beauty and heart have bewitched him but he had to let her go because he couldn't give her the future she deserved. Ari is a strong, smart and independent woman. She was a very likable heroine. I loved her sassy mouth and her persistence. She knew that Marcus was the perfect man for her and she was ready to fight for him.

"I need someone who makes me want to submit to him because of the kind of man he is, who makes me yearn to give him my power because in doing so, he completes me. I need you, Marcus!"

"I love you, Ari. You are my heart and my soul and everything in between."

Thank you Brynley for another awesome read! I highly recommend it to everyone.

I received an ARC from the author in exchange for an honest review.

3.5 stars

This is a new author to me and the story isn't bad so let's just start with that -- its very short of course as a novella usually is. However Im not sure what Im missing here or if Im not missing anything and just didn't get the jist of what was going on. This is obviously a novella of a trilogy that I have not read. I was sent the ARC and it claims it's a standalone but again it let me somewhat confused as to who was who and what had happened. I felt I was missing a huge piece of the puzzle.

Ariana has gone on a mission to finally give herself something she feels she deserves although she isn't sure if heading down he BDSM road is that road. Taking a chance she throws caution to the wind and heads to where she believes she can replace what she wanted ten years ago with Marcus. Being and FBI agent this is taking a huge chance and putting herself out there in her personal life isn't something she does. Heading to a remote location she hopes she can find her way.

Marcus is a successful lawyer and will never forget Ari – he walked away from the best thing he had ever laid eyes on her knowing he could offer her nothing. His entire world explodes when that girl walks back through the doors ten years later.

This story is really short and there is a lot of sexy time .. BUT I needed a deeper story of the characters and less sexy time. Yes I said it ... personally ladies its hard for me to connect with the characters and the events that are overcoming or trying to better themselves by fixing if all they are doing is sexy time ... so maybe if I had known more prior to reading this ... Im not sure. But if you are a fan of the Black Brothers then definitely click this up. Me – I need more story and more depth and a back story. The writing for fans of the Black Brothers is definitely a keeper and again it's not a bad story. I just didn't know the full gamete of what had happened. Im certain these two characters would have meant more to me if I had.

Thank you for the ARC! Review to post to Ramblings From Beneath The Sheets.

Another great addition to this series

By EscapeNBooks

"I love the way he makes me feel helpless, the way he dominates me. It's completely and paradoxically liberating."

Timeless by Author Brynley Bush is book 3.5 in the Black Brothers Series. It is a BDSM, erotic, and second chance love novella. I have absolutely loved this series, and Marcus's book did not disappoint in the least bit.

"She tastes like a thousand stars...like all the magic and mystery in the world...and I never want to stop kissing her."

Marcus Dunn always has a clear picture of what he wants and how to get it. He is a man with purpose and intention. He has never forgotten Ariana McKnight. Ariana has had some recent disappointments that spur her to seek out and explore sexual interests that she has had for some time. Meeting again, these two characters fight all their natural instincts to be together, while finding many more commonalities than they considered in the past.

"I want a man strong enough to possess me, a man I can surrender to, who can take what he wants and in the process, pry the world from my tight grip and set me free to feel and experience."

Told in dual points of view, Timeless brought together many of the components that I love in a great read. Strong hero and heroine, check. Hot romance, check. Mystery, check. Suspense, check. Humor, check. Brynley Bush wrote two passionate and saucy characters that were able to acknowledge their weaknesses

and past issues and, with some coercion from each other, came to discover a love that they could not let go. In addition to these two, I also loved seeing some of my favorite characters and their significant others from previous books. It was good to catch up with them and see where their lives have taken them. Can't wait for more from this series.

"That kind of love is the sky - constant and unchangeable; everything else is the weather."
